

## ASL Policies

- **All Trash and Recycling must be contained in the cart.**
  - What if not all my trash fits in the carts?
    - We have overflow stickers available for purchase
    - A sheet of 6 stickers goes for \$15 per sheet + TAX and we will mail them to you (1 sticker = 30 gallon bag equivalent)
- **Cart placement and servicing**
  - All carts should be placed with handles toward the house
    - Within 5 feet of the road
    - At least 5 feet from other objects (carts, mailboxes, etc)
    - No **Bungy Cords** or **Rocks** on lids as we are unable to service them with the ASL trucks.
    - Once serviced the cart will sit in the same direction with the lid in the open position.
      - With these trucks we have to make two passes on every street so if you should see the truck go by and you did not have your trash out you can simply drag it across the road to the other side (assuming your side was first) and the driver will know to service it on his next pass since the lid will be closed.
- Stickered overflow trash or recycling should be placed downstreet of your cart aka to the left of your cart if you are looking at your house from the street. (see picture)
